

As you're aware, the attendance area of Steve MacLean PS will change in September, due to the opening of New Findlay Creek ES.

Although a student's school of attendance may not be changing due to the opening of the new school, updated attendance areas may impact their existing childcare/before & after school program arrangements (e.g. an existing pick-up and drop-off location may now be deemed ineligible under new boundaries).

In the Steve MacLean PS case, it would be a problem for families if they live in the updated Steve MacLean boundary (west of Limebank Road), but their childcare/before & after school program is located in the Riverside South east of Limebank Road area. In September, this area will be located within the boundary of New Findlay Creek ES, so busing would no longer be available to Steve MacLean PS.

We have written a short text (see attached) you may like to use on your website/school newsletter etc, to notify parents/guardians of potential busing changes. We encourage families to contact OSTA, should they like to confirm busing arrangements for next year.
